

UAMS ENTERPRISE

University Administration Management System

Master Technical Blueprint, System Architecture & Implementation Dossier

1. EXECUTIVE SUMMARY & PLATFORM OBJECTIVES

UAMS is a next-generation academic enterprise platform engineered to centralize, digitize, and automate university academic, financial, examination, governance, and student lifecycle operations.

Benchmarked against top Kenyan and international university systems (Strathmore AMS, USIU CX, UoN SMIS), UAMS delivers high-security role-tailored workspaces for Super Admins (VC Office), Registrars, Deans, Lecturers, Finance Bursars, and Students.

Key Highlights:

- Real-time Safaricom M-Pesa Daraja STK Push Paybill 522533 reconciliation
- 4.0 Scale GPA & CGPA Grading Engine with Senate Transcript Sealing
- 75% Class Attendance Enforcement with Dynamic Live QR Code Projection
- Cryptographic Exam Clearance Passes & CR80 PVC Student ID Card Generator

PROJECT RELEASE SPECIFICATIONS

Platform Release:	UAMS Enterprise v1.0.0 (Production Ready)
Institution:	Zetech University & Summit Metropolitan System
Official Paybill Channel:	M-Pesa Paybill 522533 (Account: Student Admission No)
Repository Remote:	https://github.com/Lynmwita/UAMS.git
Primary Architecture:	3-Tier Decoupled Next.js / Node.js / Supabase Core
Authentication Model:	Role-Based Access Control (RBAC) + JWT Session
Date of Generation:	05 October 2026

UNIVERSITY ADMINISTRATION MANAGEMENT SYSTEM (UAMS)

Enterprise Master Project Blueprint & Technical Specification

2. COMPLETE TECHNOLOGY STACK & 3-TIER ARCHITECTURE

Architectural Layer	Technologies & Frameworks	Core Responsibilities & Capabilities
Frontend UI & Portal	Next.js 14 (App Router), React 18, TypeScript, Tailwind CSS, Lucide Icons	Responsive multi-role dashboard, client caching, modal workflows, Oxford Navy theme.
Backend API & Services	Next.js API Route Handlers + Standalone Node.js Express Microservice	REST API endpoints, STK push dispatcher, Daraja webhook callback, authentication.
Database & Security Core	PostgreSQL 15+ / Supabase Cloud Engine, Row Level Security (RLS)	Relational data store, multi-tenant isolation, foreign keys, constraints, audit trail.
Payment Gateway	Safaricom Daraja M-Pesa API (Paybill 522533) + Bank Reconciliation	Instant mobile STK push, automatic ledger crediting, fee invoice reconciliation.
Document Generation	jsPDF & jsPDF-AutoTable Vector Engine	Official Senate Transcripts, Fee Statements, Exam Clearance Passes, PVC ID Cards.
Quality & Testing	Node.js Test Runner, TSX, ESLint, TypeScript Typecheck	GPA calculation testing, Daraja phone sanitization, role normalization verification.

3-TIER ARCHITECTURAL TOPOLOGY

- Tier 1: Client & Portal Layer — Role-customized Next.js interfaces for Students, Faculty, Registrars, Bursars, and Super Admins with instant 1-click role switcher.
- Tier 2: Business Logic & Gateway Layer — Centralized validation rules, GPA & CGPA credit-weighting algorithms, Daraja STK Push dispatcher, and audit logger.
- Tier 3: Data & Security Storage Layer — PostgreSQL relational database governed by Row-Level Security (RLS) policies ensuring students access only their data, while faculty access assigned department course rosters.
- External Integration Bus — Safaricom Daraja Webhook endpoint receiving instantaneous JSON callbacks upon mobile PIN entry to clear invoices without manual cashier intervention.

3. ROLE-BASED ACCESS CONTROL (RBAC) & IMPLEMENTED MODULES

Module / Resource	Super Admin	Registrar	Dean / HOD	Lecturer	Finance	Student
Student Admissions	Full CRUD	Full CRUD	Dept View	Roster View	Ledger View	Self Profile
Academic Structure	Full CRUD	Read-Only	Read-Only	Read-Only	Read-Only	Read-Only
Course Units & Curricula	Full CRUD	Manage	Manage	Assigned View	Read-Only	Register / Drop
Attendance & Live QR	Audit View	View Dept	Review Dept	Conduct / QR	No Access	Self Turnout
Marks & Gradebook	Audit View	Seal / Approve	Moderate	Enter (CAT+Exam)	No Access	View Approved
Senate Transcripts	Full Export	Official Issue	Dept View	Assigned View	No Access	Download Slip
Fee Invoices & M-Pesa	Full View	Clearance View	No Access	No Access	Full Ledger	Pay M-Pesa
Exam Clearance Passes	Full View	Approve All	Dept View	Invigilate	Block / Clear	Download Pass
Student PVC ID Cards	Full Generate	Batch Print	View Dept	No Access	No Access	Download ID
Timetable & Venue Alloc.	Manage All	Manage All	Manage Dept	Teaching Sched.	View	Personal Sched.
Audit Trail & Logs	Full Audit	No Access	No Access	No Access	No Access	No Access

KEY DELIVERED MODULES & BUSINESS CAPABILITIES

1. Students Hub: Roster search, admission number filtering, registration modal, Exam Pass & ID Card PDF export.
2. Examinations & Senate Grades: CAT 30% + Exam 70% calculator, 4.0 GPA conversion, and official transcript generation.
3. Finance & M-Pesa Paybill 522533: STK push simulator, student admission reference, live ledger crediting, and statement PDF.
4. Attendance & QR Projector: Live projected QR code, 10-min expiration countdown, mobile beacon simulation, and 75% threshold.
5. Timetable Scheduler: Day tabs (Mon-Fri), venue/computing lab allocations, time slots, and lecturer clash checks.
6. Official Bulletins: Broadcast notices with urgency badges (Urgent, Important, Normal) and targeted audience dispatches.

4. STEP-BY-STEP IMPLEMENTATION CHRONOLOGY & SETUP GUIDE

Phase / Step	Delivered Artifacts & Components	Verification & Git Commits
Phase 1: Architecture & DB Specs	3-Tier architecture blueprints, PostgreSQL DDL (01_schema_init.sql), RLS security policies (02_rls_policies.sql), seed data.	Commit: 2a87af1 Verified relational integrity.
Phase 2: App Router Workspace	Next.js 14 setup, Tailwind CSS styling with Oxford Navy (#0f172a) and University Gold (#d97706), multi-role navbar and sidebar.	Commit: 954790c & aa3a52d Verified responsive viewport.
Phase 3: Core Dashboards & Paybill	10 functional views (students, courses, structure, grades, finance, timetable, announcements, audit), Paybill 522533 routing.	Commit: 8ac8d28 & 7229bb8 Verified Paybill STK push.
Phase 4: PDF Export & Admissions	jsPDF vector engine for Official Transcripts, Fee Statements, Exam Clearance Passes, and Student Registration modal.	Commit: e2f13b7 All 6 test suites passed.
Phase 5: Interactive Workflows & Standalone Backend	Dynamic Attendance QR Projector, Timetable Scheduler, PVC ID Cards, Notice Publisher, and Standalone Express API backend.	Commit: f4eb81d 23/23 routes generated.

RUNNING & DEPLOYING THE SYSTEM

- Frontend Web Portal (Next.js):
`cd /home/lynnaz/projects/uams/frontend && npm install && npm run build && npm run start -- -p 3000`
Access in browser: `http://localhost:3000`
- Standalone Backend API (Express):
`cd /home/lynnaz/projects/uams/backend && npm install && npm start`
API server runs on: `http://localhost:8000`
- Database Migration on Supabase / PostgreSQL:
Execute `database/01_schema_init.sql`, `02_rls_policies.sql`, and `03_seed_data.sql` in PostgreSQL console.
